WIRE WRAPPED SAND SCREENS

- Retain sand with small gauge = 0.008”
- Fluidize slugs with large gauge = 0.030”
- Stop debris from milled out seats and fluidize slugs = 0.030”
- Sized to allow normal production while fluidizing slugs and reducing sand cut to a percentage the pump can handle = 0.025”
- Proven to reduce stuck rods, well downs and burnt pumps
